REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art discloses a motor device having a base, a bearing unit, a core, a plurality of cores, a rotor, a shaft, a magnet fixed to the rotor, a flange and a supporting member. However, the prior art fails to show, in combination with the invention, a core unit including a plurality of cores extending in a radial direction from the bearing unit along an upper surface of the base and coils provided around each core and a shaft supported by the bearing unit and the bearing unit includes a shaft supporter having a cylindrical shape which supports the shaft, a flange formed integrally with the shaft supporter extending along the upper surface of the base, a spacer disposed in the flange independently of the shaft supporter and of the flange and having an inclined surface that is inclined with respect to the upper surface of the base and the core unit disposed on the inclined surface of the spacer and the core unit is supported by the inclined surface such that the core unit is inclined with respect to the upper surface of the base and the upper surface of the supporting member is formed at a position higher than an upper surface of the flange with respect to the upper surface of the base and the flange is provided with a concavity and a supporting member is disposed on a bottom surface of the concavity in the bearing unit and is supported by the flange.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
